Deputies/MRO Div Chiefs:

HQ USBP is in the process of developing Chief Morgan's presentation for President Elect Trump's transition team. My staff is working on the facilities piece and we need your help. I've described what we're trying to achieve below, but in reality it's probably easier to have a telcon this afternoon to explain and answer questions, especially since this is a very short turn time. **We've scheduled a 14:30 EST telcon for today to discuss this email. Call in number is (b) (7)(E) . The participant code is (b) (7)(E).** I hope each of you can have someone call in to discuss this effort. Sir,

(b)(7)(E) is in full concurrence with you building the script and voicing over the raw footage we will submit. We are compiling a list of bullets to use in addition to the facility submission you have for (b)(7)(E) Station. I will forward these bullets to you by the end of the day.

Thank you,

All,

As per yesterday's teleconference, RGV and LRT have agreed to help spearhead this effort. We are proposing (b) (5)

(b)(6);(b)(7)(C)

(b)(6);(b)(7)(C)

(b)(6);(b)(7)(C)

(b)(6);(b)(7)(C)

(b) (5)

Please start working on your raw video vignettes, 60 seconds each, and RGV will build a five minute presentation that equally represents each sector's facility challenges (and/or successes).

In short, we are looking for your concurrence, by COB today, to build the script from your previous facility submissions and to use that script (once approved by you and OBP) to voice over and edit the raw video footage you submit. The sooner we receive your concurrence, the sooner we can get started.

Thanks and please let me know if you have any questions,

Chiefs,

Thank you! Your teams are collaborating with (b)(6);(b)(7)(C) and our Comms team to produce several videos describing how our facilities affect operations at our 5 operating platforms – camps, FOBS, checkpoints, stations & sectors. This is in prep for potential Presidential transition team briefs.

I know your teams are working the first raw footage to produce a 5-min broad USBP video now. Please make sure they get that footage to (b)(6);(b)(7)(C) in RGV ASAP. (They know the deadlines). Phase II will be producing 90-second videos on each of the 5 platforms.

Thanks again and I hope you have the warmest of Thanksgivings!

Chiefs/Deputies:

As you know, we are moving fast and furious here at HQ to be prepared for the new Administration.

In support of the 2016 Presidential Transition Team, CBP has requested USBP provide requirements for fencing. This RFI is **not** for replacement fence. It is for new fence construction. HQ already possesses an up-to-date list for replacement fencing.

The attachment contains the miles of new fence construction for each sector. Please confirm that the requirements for new fencing are correct. If not correct, add additional miles (or correct the number) as required for your sector. You should be able to substantiate new

requirements via data collected by your sector during the Capability Gap Analysis Process. CGAP information is not required as part of this response, but may be requested at a later date.

Please provide your responses to the gentlemen on the CC line for compilation.

Deputies/MRO Div Chiefs:

HQ USBP is in the process of developing Chief Morgan's presentation for President Elect Trump's transition team. My staff is working on the facilities piece and we need your help. I've described what we're trying to achieve below, but in reality it's probably easier to have a telcon this afternoon to explain and answer questions, especially since this is a very short turn time. **We've scheduled a 14:30 EST telcon for today to discuss this email. Call in number is (b) (7)(E) The participant code is (b) (7)(E)** I hope each of you can have someone call in to discuss this effort. In the meantime, let me try to explain what we're trying to accomplish so you have some prep.

Chiefs/Deputies:

In support of the 2016 Presidential Transition Team, CBP has requested USBP provide requirements for surveillance technology.

The attachment contains surveillance requirements for your respective sectors. The information was derived from the Capability Gap Analysis Process, Initial Requirements Documents (for sectors that have produced them), and other sources (ex. Analysis of Alternatives and the previous Border Security Bill [HR 399]).

Note that the surveillance inventory **does not** include agent handheld surveillance equipment (ex. (b) (7)(E) etc.). It only contains:

• (b) (7)(E)
•
•
•
•
•
•
•

Instructions:

1. There is a tab in each spreadsheet that corresponds with each sector
2. Please review your sector's information
3. If there are concerns about the number/type of assets, please provide a comment in the "Sector Comments" column indicating so (ex. proposed number of assets).

Please send responses to the gentlemen on the cc line.

Thank you for making this a priority for the Border Patrol.

Chiefs,

Thank you! Your teams are collaborating with (b)(6);(b)(7)(C) and our Comms team to produce several videos describing how our facilities affect operations at our 5 operating platforms – camps, FOBS, checkpoints, stations & sectors. This is in prep for potential Presidential transition team briefs.

I know your teams are working the first raw footage to produce a 5-min broad USBP video now. Please make sure they get that footage to (b)(6);(b)(7)(C) in RGV ASAP. (They know the deadlines). Phase II will be producing 90-second videos on each of the 5 platforms.

Chief,

The video is too large to email, we sent it to RGV through the share drive. PAO left a copy on disc of the video with (b)(6);(b)(7)(C) for you, but I can deliver to you if you want to see it sooner. OBP HQ tasked different Sectors with different examples to send in. (b) (7)(E)

(b)(6);(b)(7)(C). There was no verbal or voice over on the videos, strictly a visual of our facilities. There were a total of 19 videos clips, 15:03 minutes long total. The clips were:

- 1) AERIAL VIEW LRT HQ
- 2) LRT HQ (FRONT)
- 3) LRT HQ (FRONT PARKING)
- 4) AERIAL VIEW LRT HQ (PARKING LOT)

Chiefs,

Thank you! Your teams are collaborating with (b)(6), (b)(7)(C) and our Comms team to produce several videos describing how our facilities affect operations at our 5 operating platforms – camps, FOBS, checkpoints, stations & sectors. This is in prep for potential Presidential transition team briefs. (b) (5)

So let me say thanks again!

I know your teams are working the first raw footage to produce a 5-min broad USBP video now. Please make sure they get that footage to (b)(6);(b)(7)(C) in RGV ASAP. (They know the deadlines). Phase II will be producing 90-second videos on each of the 5 platforms.

Thanks again and I hope you have the warmest of Thanksgivings!

Border Fence Overview

- To date, U.S. Customs and Border Protection (CBP) completed **654 miles of primary pedestrian and vehicle fence**.
 - Border Fence provides persistent impedance to illegal cross-border activity, which offers Border Patrol agents more time to respond to and resolve threats.
 - CBP has completed three main fence programs since the enactment of the Secure Fence Act in 2006: Pedestrian Fence (PF) 70, PF 225, and Vehicle Fence (VF) 300. Any fence constructed prior to these programs is considered “legacy.”*
 - Tactical Infrastructure (TI) also includes gates; roads, bridges and boat ramps; drainage structures and grates; lighting and electrical systems; and vegetation and debris removal.

Importance: High

Chiefs and Deputies,

As we continue to work towards identifying our requirements specific to tactical infrastructure, we have been tasked with developing a prioritization list for each sector specific to the new and replacement fencing (pedestrian and vehicle as well as secondary fencing) as well as roads and road repairs.

Your staffs submitted those requirements last week and refined those submissions into the late hours last Thursday. (As a reminder, these requirements were unconstrained and operationally based and did not consider political, land ownership/access or environmental concerns; it was simply a raw look as what each sector needed, barring impediments.)

For today's effort, each sector must prioritize each requirement (in blocks of miles), taking into consideration what the highest priority need may be. Your highest priorities may be new roads, road repair, new fence, new vehicle barrier, new secondary fence or fence replacement. Sectors are best suited to identify their requirements, and each sector's totals (miles) for each category in aggregate need to match up with the totals as previously submitted. **We need each sector's priority list, executed on the attached spreadsheet (instructions are included on TAB 2 – Instructions), by 1200 hours (eastern) tomorrow, 15 November 2016.**

Once that is complete, HQBOR will identify projects from a national priority perspective, based on your submissions. OFAM (new name for FM&E) will then identify those locations where construction or replacement can begin once funding is appropriated (read: impediments have already been overcome that stall or hinder such projects). NOTE: It is possible, that based on ability to execute, some of the lower prioritized requirements may be initiated before your higher priorities. It should not be construed that we will be only be focusing on one sector and their identified priorities at a time. It is highly probable multiple projects across the nation will be executed at the same time.

This information must be provided to the Office of the Commissioner via a Powerpoint presentation by Friday morning, which will be executed at the HQ level.

I am attaching a roll-up slide (.ppt) of the new TI requirements HQBOR captured for each of your sectors last week as a reminder of what we have briefed thus far.

As a heads-up, a description is requested (ie Zone (b)(6);(b)(7)(C) for the project as well as the TO/FROM LAT/LONG for each priority.

Collection point will be Associate Chief (b)(6);(b)(7)(C) with a CC: to (b)(6);(b)(7)(C)

Subject: Sector Presidential Transition Team Point of Contact

Chiefs,

As election day has passed, we are now moving on to the next phase which is the transition of the new administration. Over the next several weeks and months, we will be charged not only

with assisting the incoming administration but also with memorializing the accomplishments of the outgoing administration. In short order, President-elect Trump and staff will request briefings, materials, documents, etc. designed to bring them up to speed on the U.S Border Patrol. With these requests come outstanding opportunities for us to give input and insight into how we can be successful in accomplishing our mission.

As we all know, one of President-elect Trump's central campaign themes was "border security." With our mission a clear priority, HQBOR anticipates a lot of questions both formally and informally from both the incoming administration and incoming members of Congress. We must be ready to provide the best and most accurate information as quickly as possible in order to take advantage of every opportunity to describe who we are, what we do and what we need to get our mission accomplished.

HQBOR is forming a Presidential Transition Team (PTT) which will be led by Associate Chief (b)(6);(b)(7)(C). This team will lead the collection of information, formulate responses to inquiries and draft various transition documents. They will also take the lead for the USBP in coordinating briefings, as requested, to the incoming administration and other government officials.

HQBOR wants to ensure appropriate field-level perspective and information is provided in our collective responses. It is requested each sector designate a senior-level point of contact (POC) who can coordinate directly with the PTT and assist with gathering information and providing responses to inquiries. Each sector may wish to consider having a small team ready to respond to these requests for information, as many will come with a short turn around.

Please provide your sector designated point of contact to Associate Chief (b)(6);(b)(7)(C), whose contact information is below, by close of business Monday, 14 November 2016.

If you have any questions, please contact me at your convenience, or your staff can direct inquiries to Associate Chief (b)(6);(b)(7)(C) (desk); (b)(6);(b)(7)(C) (cellular) or at (b)(6);(b)(7)(C).

Subject: Sector Presidential Transition Team Point of Contact

Chiefs,

As election day has passed, we are now moving on to the next phase which is the transition of the new administration. Over the next several weeks and months, we will be charged not only with assisting the incoming administration but also with memorializing the accomplishments of the outgoing administration. In short order, President-elect Trump and staff will request briefings, materials, documents, etc. designed to bring them up to speed on the U.S Border Patrol. With these requests come outstanding opportunities for us to give input and insight into how we can be successful in accomplishing our mission.

As we all know, one of President-elect Trump's central campaign themes was "border security." With our mission a clear priority, HQBOR anticipates a lot of questions both formally and informally from both the incoming administration and incoming members of Congress. We must be ready to provide the best and most accurate information as quickly as possible in order to take advantage of every opportunity to describe who we are, what we do and what we need to get our mission accomplished.
